

# Ocean Chair

## Recycled pharma plastic waste

The Ocean Collection was originally designed in 1955 by some of the 20th century's most renowned designers, Jørgen and Nanna Ditzel.

The Green version is made of recycled pharma plastic waste. The series is characterized by its light structure with repeated slats and metal frames, made and tested for outdoor use. The Ocean Collection is designed for disassembly, meaning that the design allows each component in its purest form to recycle into new production circles.

Green

**Designed by**  
Jørgen and Nanna Ditzel

**Item no.**  
09304 Ocean Chair – Green\*

*\*Variation possible due to recycled materials*

**Country of origin**  
Poland

**Materials**  
Slats made from recycled pharma plastic waste. One chair contains 2.07 kg / 4,56 lbs of waste materials

Steel tube, 20% recycled steel,  
Gunmetal finish

**Gliders**  
Hard plastic gliders installed as standard

**Stackable**  
Up to 4 pcs.

**Test**  
EN 581-1:2017, EN 581.2:2015  
EN ISO 9227:2017

**Dimensions**  
W 60 cm D 56 cm H 81 cm SH 46 cm  
ARH 67 cm / W 24" D 22" H 32" SH 18" ARH 26"

**Packaging** 1 box / 4 pcs.\*\*  
*\*\*Additional cost in breakage fee will apply for orders below 4 pcs.*

**Weight**  
6,7 kg / 14,8 lbs

**Maintenance**  
Please follow our material cleaning and care guide [here](#)

**Environment**  
Outdoor

# Mater Sustainability Factsheet

## Pharma Plastic Waste

Recycled pharma plastic waste, such as discarded insulin pens. Advances in technology now enable the safe decontamination of medical plastics, allowing materials once destined for incineration to be repurposed. The waste material is sourced from Europe.

## Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.

Contact our customer service for more info [here](#)

## Steel

Our Steel is made from 20% recycled steel with a gun metal finish. Steel is a strong and light material that can be processed in unlimited ways.

## CO<sub>2</sub> Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.
