PRODUCT FACT SHEET

## AAC 10

DESIGN BY HEE WELLING, 2010

Featuring a swivel base, the About A Chair AAC 10 conveys a more formal expression than its wooden-legged counterparts from the collection. Retaining the same open, curved shell and legs that fan out from the centred base, it has a cast aluminium swivel base in polished or powder coated finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. The multitude of variants and design combinations give this series a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.
